'Participants' dataset

user.id	Unique participant ID number assigned by study platform on registration
Width:	4
Decimal:	0
Variable Type:	numeric
Variable Measure:	nominal
	Based upon 134 valid cases out of 134 total cases
user.status	goAct user account status. Listed as Active if user
	activated their account, Locked if user did not
	activate their account, and Expired if user account
Width:	was deleted during study
widin. Decimal:	7 0
Variable Type:	
Variable Type. Variable Measure:	string nominal
variable ineasure.	Based upon 134 valid cases out of 134 total cases
	Based upon 134 valid cases out of 134 total cases
survey.id	Unique Qualtrics survey ID assigned to participant,
	link to profiling survey
Width:	link to profiling survey 17
Width: Decimal:	link to profiling survey 17 0
Width: Decimal: Variable Type:	link to profiling survey 17 0 string
Width: Decimal:	link to profiling survey 17 0 string nominal
Width: Decimal: Variable Type:	link to profiling survey 17 0 string
Width: Decimal: Variable Type:	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their
Width: Decimal: Variable Type: Variable Measure:	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their goAct account and received a unique user id
Width: Decimal: Variable Type: Variable Measure: study_register_datetime	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their goAct account and received a unique user id (dd/mm/yyyy hr:min:sec)
Width: Decimal: Variable Type: Variable Measure: study_register_datetime Width:	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their goAct account and received a unique user id (dd/mm/yyyy hr:min:sec) 23
Width: Decimal: Variable Type: Variable Measure: study_register_datetime Width: Decimal:	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their goAct account and received a unique user id (dd/mm/yyyy hr:min:sec) 23 0
Width: Decimal: Variable Type: Variable Measure: study_register_datetime Width: Decimal: Variable Type:	link to profiling survey 17 0 string nominal Based upon 127 valid cases out of 134 total cases The time and date when participant registered their goAct account and received a unique user id (dd/mm/yyyy hr:min:sec) 23 0 string
